### P. D. HINDUJA HOSPITAL & MEDICAL RESEARCH CENTRE

invites you to a Seminar on

# IgG4-Related Disease THE MULTISYSTEMIC MIMIC EVERY PHYSICIAN SHOULD KNOW

Date: Sunday, 25<sup>th</sup> August, 2024 Time: 09.00 AM to 01.30 PM Venue: Hotel Status, Mahim, Mumbai.

The Department of Rheumatology, P. D. Hinduja Hospital & MRC is excited to announce our upcoming conference!

Join us for an insightful day featuring expert speakers, case discussions, and the latest in IgG4-related disease research.

lgG4-related disease (lgG4-RD) is a rare, systemic condition characterized by inflammation and fibrosis in multiple organs due to lgG4-positive plasma cell infiltration. It can affect organs such as the pancreas, bile ducts, salivary glands, kidneys and lungs, often presenting with organ enlargement and mass-like lesions. Diagnosing lgG4-RD is challenging because it mimics other diseases including cancer and infection, but it is treatable with corticosteroids and immunosuppressive therapies to manage inflammation and prevent organ damage.

Register fees ₹100/- (inclusive of 18% GST). Registration is mandatory.

## IgG4-Related Disease THE MULTISYSTEMIC MIMIC EVERY PHYSICIAN SHOULD KNOW

Date: Sunday, 25<sup>th</sup> August, 2024 | Time: 09.00 AM to 01.30 PM Venue: Hotel Status, Mahim, Mumbai.

Title		Speaker	Time
	Breakfast 8:30 - 9:00 am		
Introduction	Welcome and Overview of IgG4-Related	Dr. Rohini Samant	9:00 am - 9:05 am
Introduction to IgG4	Introduction to IgG4: Pathogenesis, Clinical Presentation, and Spectrum of IgG4-RD	Dr. Sandeep Yadav	9:10 am - 9:30 am
	Discussion		5 minutes
Pathology	IgG4-RD through the microscope: Immunopathology and Differential diagnosis	Dr. Chitra Madiwale	9:35 am - 9:55 am
	Discussion		5 minutes
Organ- Specific Manifestations	lgG4-Related Sinusitis, Upper Airway, and Lower Airway involvement	Dr. Radhika Banka	10:00 am - 10:20 am
	Discussion		5 minutes
	Ophthalmic and Orbital Manifestations of IgG4-RD	Dr. Savari Desai	10:25 am - 10:45 am
	Discussion		5 minutes
	Renal and Retroperitoneal IgG4-Related Disease	Dr. Rasika Sirsat	10:50 am - 11:10 am
	Discussion		5 minutes
	Tea Break 11:15 to 11:30 am		
	GI: Pancreatitis, Hepatobiliary and Omental involvement	Dr. Devendra Desai	11:30 am - 11:50 am
	Discussion		5 minutes
	Atypical and Multisystem involvement of IgG4-related disease	Dr. Rohini Samant	11:55 am - 12:15 pm
	Discussion		5 minutes
Treatment Strategies	Current monitoring and therapeutic approaches for IgG4-RD	Dr. C Balakrishnan	12:20 pm - 12:40 pm
	Discussion		5 minutes
Mimics / Rare presentations	Case 1: IGG4 levels and infection Case 2: Lymphoma as mimic Case 3: Presumptive IGG4 treatment without any biopsy Cases: Department case series	10 minutes 10 minutes 10 minutes 15 minutes	12:45 pm – 1:30 pm
Closing Remarks and Vote of Thanks
